

Brainstorming – Idea Generation – Prioritization Template

Date	15-8-2026
Project Name	Automated-Network-Request-Management
Maximum Marks	4 Marks

1. Brainstorming

The brainstorming phase focused on identifying common challenges in handling network-related service requests. The main issues identified were manual request processing, delays in approvals, incorrect routing, lack of request visibility, and repetitive work for IT teams.

2. Idea Generation

S. No.	Idea	Description
1	Automated Network Request Management	Automate the complete lifecycle of network-related requests using ServiceNow.
2	Self-Service Network Request Portal	Allow users to submit network requests through a centralized service catalog.
3	Automated Approval System	Automatically route requests for appropriate approvals based on request requirements.
4	Automated Task Creation	Create network-related records/tasks automatically after request submission.
5	Email Notifications	Notify users and IT teams about request status and approval outcomes.
6	Request Tracking & Reporting	Provide visibility into request status, resolution time, and SLA performance.

3. Idea Prioritization

The ideas were prioritized based on **business value, feasibility, automation potential, user convenience, and implementation effort.**

Idea	Business Value	Feasibility	Priority
Automated Network Request Management	High	High	1 – Highest
Self-Service Network Request Portal	High	High	2
Automated Approval System	High	High	3
Automated Task Creation	High	High	4
Email Notifications	Medium	High	5
Request Tracking & Reporting	Medium	Medium	6

4. Selected Idea

Automated Network Request Management in ServiceNow was selected as the final idea because it combines self-service request submission, automated approvals, record creation, notifications, and workflow automation into a single solution. This directly addresses the delays and manual effort associated with traditional network request management. The project document identifies these same capabilities as core features of the proposed solution.
